

Vice Chancellor's Report to Council

March 2022

Introduction

Semester 1 started off busily with a buzz of students on campus despite COVID restrictions. The impact of Omicron coincided almost exactly with Orientation week. As a result most planned social activities had to be cancelled or in some cases moved online in reduced form. The University of

Limited social opportunities for students because of the government COVID rules has, we believe, been the primary factor for an unwelcome level of weekend disturbance on Ilam Fields and in other

In January this year, the University announced our intention to redevelop the Dovedale Campus to focus on digital screen industry education, research and commercial collaboration. The initiative responds to global demand for graduates and research and development in these industries. In addition, it supports many of the University's goals and key objectives. First and foremost, it contributes to our education and research goals. It is also a key plank in achieving sustainable scale, contributing to our positive economic impact on the local

development and to support the establishment of data governance and supporting frameworks, while working to progress new data use cases rapidly.

Development has also continued on increasing the impact and value of ACE for students and staff. Last month the combined Digital Services and Kia Angitu ACE squad went live with ACE integrating WR RXU UHODWLRQVKLS PDQDJ with the Whānau ACE Paū. Beyond first year students and despite the increase in case numbers this expected to bring the ACE team will still be able to effectively coordinate case management. The ACE integration with Dynamics was a key technical milestone of the Kia Angitu programme, as we continue to scale the '360' degree view of students for advisory and pastoral care.

Underpinning all the work being undertaken digitally is a commitment to the protection of UC people, DVVHWV DQG GDWD & KLHI 'LJLWDO 2IILFHU 0LFKDHO 2XOVG. Tagwireyi have been progressing significant tactical initiatives to make immediate improvements in our protection while developing a comprehensive cybersecurity strategy and programme for UC. 0DQ\ RI WKH LQLWLDWLYHV DUH LQYLVLU to make small changes to our daily work habits, such as adopting multi IDFWRU DXWKHQWLFDWLRQ 0)\$ Digital Services. A new [Sustainability Hub web page](#) has been developed to feature all our strategic work in this area. It covers teaching, learning and research related to sustainability, as well as providing a direct link to the work of the Sustainability Office and information about recognition UC has received, including rankings results and awards news. The web page appears under the 'About' section of the University website.
